DEEP ROOTS

Global Issue

A trillion plastic bags are consumed worldwide each year.

Total plastic waste in the India is estimated to be 15305 tons per day. Only 60% of total plastic waste is collected, rest 40% remain uncollected and littered.

It costs \$4,000 to process and recycle 1 ton of plastics bags, which can then be sold on commodities market for only \$32.

Only 1% is recycled.

Solution

PET BOTTLE Bag is an innovative & unique concept to promote the reuse of bag and prevent people from using plastic bags.

PET BOTTLE Bag is a foldable multi-utility colorful bag made of environment friendly Parachute Fabric. These bags are lightweight, portable, water-repellent and each one holds the equivalent of four supermarket plastic bags ,thanks to its unique design. It has a capacity to carry up to 25 kg of weight and washable.
